8075B CHAIN CLEANER INSTRUCTIONS

REPLACEMENT BRUSHES

#50RB Sides (4)

#75RB Top (1)

INSTALLATION

1. Select a flat track section approximately 30" long, preferably just prior to entering the washer. Do not place brush where debris may fall on personnel or contaminate parts.
2. Remove a section of the rail equal to the length of the brush cleaning system. Be sure the ends to be welded are clean and square.
3. Weld the brush cleaner into place. Be sure that the direction of travel is correct according to the stickers on the brush cleaner.

SPECS: Units are pre-mounted on modified rail section | 30" L x 10" W x 7" H | Weight: 25 pounds
